Abstract

- FemCare is a smart web-based pregnancy guidance platform designed especially for working women and expecting mothers.
- The platform helps women monitor their health, receive personalized diet plans, set medication reminders, track fetal development, maintain emotional well-being, and access multilingual chatbot support.
- FemCare combines health tracking, emotional support, and technology to ensure a safe and stress-free pregnancy journey.

Problem Statement

- Working pregnant women struggle to balance job and health.
- Lack of personalized pregnancy guidance.
- Difficulty remembering medication timings.
- Limited access to reliable health information in regional languages.
- Emotional stress during pregnancy.
- No single platform combining health tracking + emotional wellness.

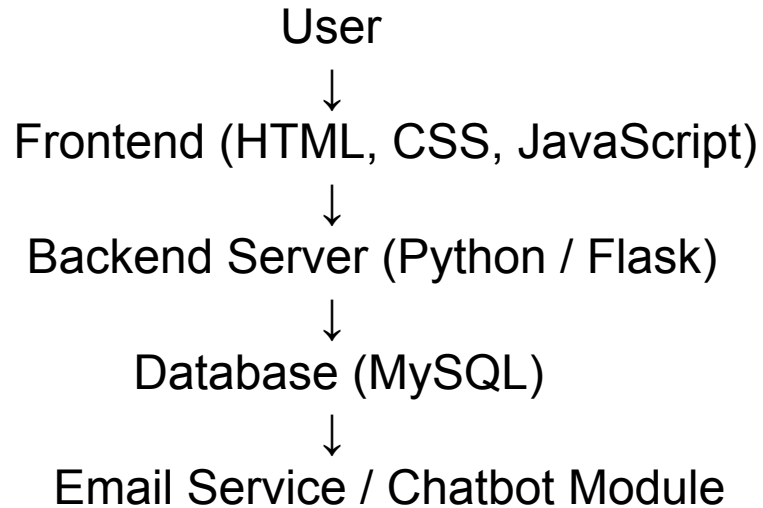

Proposed Solution

- ❑ User Registration & Secure Login (Mail ID + Phone Number).
- ❑ Health Details Collection (Height, Weight, BP, etc.).
- ❑ Personalized Diet Plan Based on Health Data.
- ❑ Daily Medicine Reminder via Email (e.g., 8:00 AM alert).
- ❑ AI Chatbot Supporting 6 Indian Languages.
- ❑ Fetal Development Tracker.
- ❑ Diary Entry Feature for Mothers.
- ❑ Spiritual & Relaxing Audio Section (Ramayanam) along with Story Books.
- ❑ Contact & Support Section.

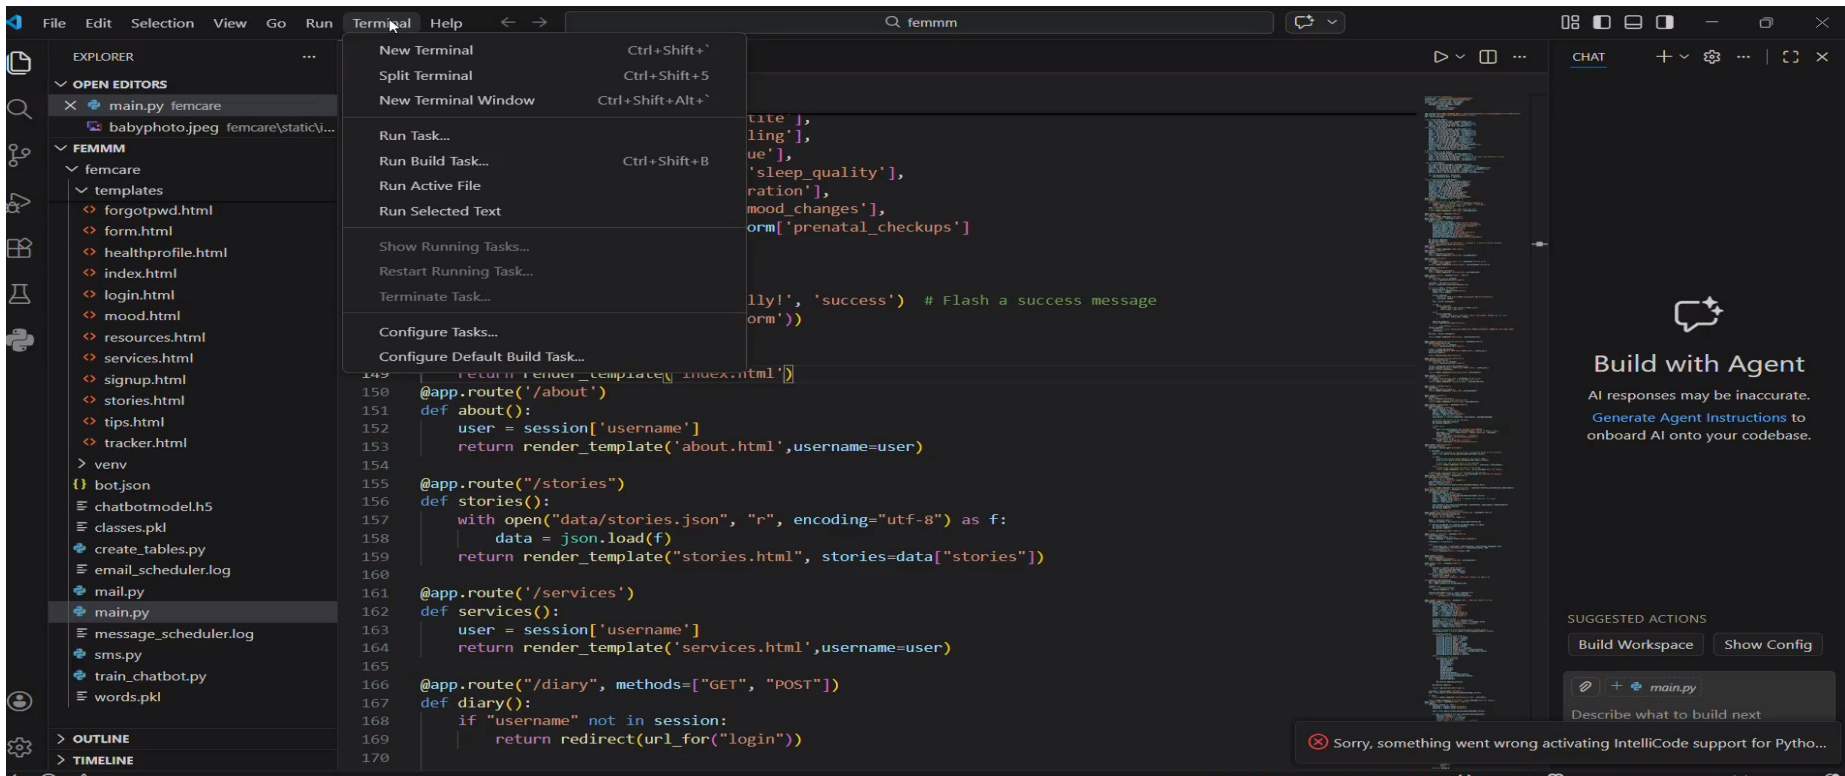

System Architecture

Live Demo of Project

- User Registration (Email & Phone Number)
- Secure Login
- Health Details Entry (Height, Weight, BP, etc.)
- Personalized Diet Plan Generation
- Tablet Reminder Setup (8:00 AM Email Alert)
- Multilingual Chatbot Interaction
- Fetal Development Tracker
- Diary Entry Feature
- Audio Section (Ramayanam) and Story books.
- Find hospitals
- Contact Section

Video of Project Demo

Conclusion

FemCare is a comprehensive pregnancy guidance platform designed especially for working women and expecting mothers.

It successfully integrates:

- Personalized health monitoring
- Smart diet recommendations
- Automated daily medicine reminders
- Multilingual AI chatbot support
- Fetal development tracking
- Emotional wellness features like diary entries and audio therapy

Future Scope

FemCare can be further enhanced with:

- Mobile Application (Android & iOS)
- Integration with wearable devices (Smartwatch health sync)
- Online doctor consultation
- Emergency alert system for high-risk cases
- AI-based pregnancy risk prediction
- Cloud-based data security enhancement
- Video counseling sessions

Thank You
